

“BLADE AND CHISEL”

Hudson Valley Wood Carvers Pleasant Valley, NY November 2014

President's Message

One of the many things that I enjoy about this club is the sharing that goes on in every session. I have even seen how to make a weight for a clock by using a square block of wood. I think that is better than the PVC weights that I have seen with some wooden gear clocks.

As we all go through this holiday season I hope that we can all enjoy our time carving. As my wife says it is a time for all of us of all ages.
